WIRE FLOWER POT STANDS

This Illustration Shows our Style of **FINISH**
in **GREEN** and **GOLD**.

MANUFACTURED BY

BARBEE WIRE AND IRON WORKS,
44 AND 46 DEARBORN ST.,
CHICAGO.

The following illustrations comprise the most popular styles of our manufacture:

The large demand for our stands has convinced us that GOOD WORK IS APPRECIATED. We do not make "*Anything that will sell,*" but what will sell and be appreciated by purchasers.

OUR STANDS ARE ALL GUARANTEED TO BE SUPERIOR IN DESIGNS, STRENGTH, DURABILITY and FINISH to any other make now on the market.

(COPYRIGHTED)

STYLE OF BORDER USED ON ALL OUR FLOWER POT STANDS.

The above design of border is used on all styles of stands of our make, although most of the cuts show the old style. This border makes a much nicer finish, and is less liable to catch clothing and get out of repair than *the old style*.

SEE OUR NO. 432½, PAGE 3, ALSO SEE COVER FOR STYLE OF FINISH IN GREEN AND GOLD.

REMEMBER

all of our stands have this *border* exactly as shown and strong castors attached as shown on page 2.

In ordering from our catalogue see that you get this style of border. Do not allow your dealer to put in inferior stands of other style of manufacture.

We solicit a careful comparison of our work with that of other manufacturers, particularly as to strength of material, details of construction and beauty of finish.

OUR PATENTED METHOD.

Owing to the heavy weight and constant strain on, and defective methods of attaching castors, purchasers have been seriously annoyed by breakage. This defect we have successfully overcome by the use of our patented upset ball shoulder, which greatly adds to the strength of the leg instead of weakening it by cutting away to form a bearing for the castor. The cut above clearly illustrates our method of attaching them. This improvement, together with heavier material than is generally used, can not but be appreciated.

Flower stands do not need boxing or crating. We have shipped thousands of them to all parts of the country, and have never had complaint of breakage.
